

Redback Social Tiles

How to Use

We've made marketing easy thanks to our pre-designed social tiles. Simply download our Social Tile Pack to access a suite of images optimised for your social media. You can add your company logo to each tile before posting it to your pages.

1. Choose the social tile you wish to use
2. Place your logo on the tile – size appropriately so it is in proportion to the Redback logo
3. Add the retail price you will offer the system at (where applicable)
4. Select the image, price, and your logo by holding the ctrl key and clicking the social tile and your logo
5. Right-click and choose save as picture
6. Choose a file name and change file type to jpg or jpeg
7. The file will be saved and can be uploaded to social media

The Smart Inverter

Love at first light!

The **new** Redback Smart Inverter

If you're looking to invest in solar for your home, you can't go past the Redback Smart Inverter.

Designed and tested in Australia, the Redback Smart Inverter is affordable yet robust and designed to survive in harsh Australian outdoor conditions. Plus, the [MyRedback app and Redback Portal](#) come standard so you can monitor your system's activity anytime, anywhere.

Reduce your power bill and your carbon emissions with the Redback Smart Inverter.

The Smart Battery System

Upgrade your existing Solar System with a Redback Smart Battery System.

Now available in **3 sizes.**

Redback's Smart Battery System is the perfect upgrade to your existing solar system.

Adding a battery to compliment your rooftop solar enables you to maximise your home's self-sufficiency by utilising more of your own, self-generated energy, and to keep the lights on if the grid goes down*.

And with three system sizes to choose from, you can tailor your Smart Battery to your household energy usage.

**When backup circuit is connected, and battery energy is available.*

The Smart Battery System

Meet the **new** members of the **Smart Battery Family**

Meet the new members of the Smart Battery Family! Redback's Smart Battery System now comes in three convenient sizes, making it the perfect solution for anyone looking to upgrade their solar system.

Why chose the Redback Smart Battery System?

- Fast and easy installation
- Australian designed, tested and supported
- Backup Power Supply to keep the lights on in a power outage!

**When backup circuit is connected, and battery energy is available.*

The Smart Inverter

Weather the Australian storms with an easy upgrade to your existing solar system

Now Available in 14.2kWh!

Have peace of mind in a power outage with Redback's Smart Battery Systems.

Their built-in backup circuit automatically kicks in during power outage.*

So, you can protect yourself when the unexpected occurs
